Subject: Monday presentation

Hi David,

Your Monday night presentation should drive the SCASD board toward a fresh look, as you suggested, at the entire high school renovation project. You prepared well and presented very professionally! I forwarded your sensible solutions web site address to a number of my contacts.

I have also forwarded the c-net re-broadcast dates and times* to several in the community and I hope they will take the initiative to call school board members to respectfully request a fair hearing on this proposal. Cost counts, as does quality delivery of good education, and I think this is one more opportunity for the community to be involved for the sake of our young people, first, and secondly, for the taxpaying community.

Congratulations on a very good proposal and a nice presentation!
